

Strategic Advisor - Dawn Montemayor

SHORT BIO

Highly accomplished business leader and consultant with more than 18 years of success within Information Security, Information Technology, Risk Management, and business operations. A regular speaker at Information Security and Information Technology conferences, including C-level roundtables. Led the build-out of multiple practices and has contributed to numerous metric enhancers while developing key go-to-market material as well as finalizing approach documentation and deliverables. Extensive experience in developing “risk-based” information security strategies, helping companies of all sizes reduce risk while also minimizing costs. Areas of expertise include policy and program development, risk mitigation, security architecture and engineering, security monitoring and management, incident response, vendor selection, security and compliance assessments, vulnerability management, and the unique ability to redesign, update, and execute IT and Information Security strategy from the ground up. Vast experience consulting in various industries including energy, education, retail, sports & entertainment, telecommunications, high-tech, franchising, healthcare, and government within numerous global companies.

Strategic areas of expertise:

- Operations
- Technology
- Strategy
- Growth
- Leadership
- Scenario Planning / Futurist
